PROFESSIONAL SUMMARY

Flutter Developer with 2+ years of experience building scalable cross-platform mobile applications. Proven expertise in state management (BLoC, Provider), RESTful API integration, and agile development methodologies. Strong track record of delivering high-quality, maintainable code while collaborating effectively with cross-functional teams. Currently pursuing Associate of Science in Computer Science with focus on mobile application architecture and user experience optimization.

TECHNICAL SKILLS

- **Mobile Development:** Flutter, Dart, Cross-Platform Development, Mobile App Architecture, UI/UX Implementation
- **State Management:** BLoC Pattern, Provider, Reactive Programming, State Management Best Practices
- **Backend & APIs:** REST APIs, Third-Party API Integration, Payment Gateway Integration (Card Processing)
- **Tools & Technologies:** Git, Dialogflow, Firebase, Agile/Scrum Methodologies, SDLC
- **Core Competencies:** Problem Solving, Debugging, Code Review, Testing, Performance Optimization
- **Languages:** Pashto (Native), English (Professional), Urdu (Professional), German (Elementary)

PROFESSIONAL EXPERIENCE

Flutter Developer   **May 2024 – Present**

Softech Square Software Solutions Pvt Ltd, Peshawar, Pakistan

- Architected and developed production-ready mobile applications using Flutter framework, ensuring high performance and maintainable codebases with BLoC and Provider state management patterns
- Integrated complex payment card processing systems and third-party APIs, implementing robust error handling and validation logic to ensure transaction reliability and security
- Collaborated with cross-functional teams (UX designers, QA engineers, project managers) using Agile methodologies to deliver features on schedule with 100% sprint completion rate
- Implemented Dialogflow integration for intelligent chatbot functionality, streamlining in-app communication and enhancing user engagement metrics
- Conducted comprehensive code reviews and mentored junior developers on Flutter best practices, improving team code quality and reducing bug count by implementing standardized coding patterns
- Optimized application performance through efficient widget rendering, state management, and API call strategies, resulting in improved user experience and app responsiveness

Flutter Development Intern   **October 2023 – April 2024**

Softech Square Software Solutions Pvt Ltd, Peshawar, Pakistan

- Developed and enhanced cross-platform mobile applications using Flutter, implementing new features and maintaining existing functionality across iOS and Android platforms
- Executed thorough testing and debugging procedures to ensure application quality, stability, and optimal performance across multiple device configurations
- Assisted in maintenance and optimization of production applications, identifying and resolving performance bottlenecks and improving overall user experience
- Collaborated with senior developers to learn industry best practices and contributed to team knowledge sharing sessions on Flutter development techniques

EDUCATION

Associate of Science in Computer Science   **December 2022 – December 2025 (Expected)**

University of Peshawar, Peshawar, Pakistan

FSC Pre-Engineering   **March 2019 – July 2021**

Government Abdul Ali Khan College, Pakistan

CERTIFICATIONS

- Full Stack Web App Development
- Flutter Developer Certification
- Flutter Development (Advanced)
- Python Fundamentals for Beginners

KEY ACHIEVEMENTS

- Successfully transitioned from intern to full-time Flutter Developer within 7 months based on strong performance and technical contributions
- Delivered multiple production-ready mobile applications with integrated payment systems and real-time communication features
- Maintained high code quality standards through implementation of best practices in state management and application architecture
